# Memorandum

**To:** Mr. Bolden

**From:** Tao Zhang

**Subject:** Programming Assignment 6

**Date:** May 9, 2014

---

**This memo shos the process and results of programming assignment 6.**

**Everything works fine:**

- The graph: is displayed in the correct 3D form

- Material: have four different one in each quadrant.

- Default white light: it make DIFFUSE works and all material are displayed in correct color.

- Three primary color light: all of them are made to SPECULAR so there are three spots reflect on the surface.

- Name and Class Info: are displayed on the screen, but once I scaled the graph the info will be out of the viewport. (That's why only the first graph has the info on the output graph at the second page.)

**The graph looks really awesome when I rotate or move it on testing. Well Done!**
